SUMMARY

Marketing graduate with a rare analytical edge - a double degree in **Business (Marketing)** and **Applied Data Science** from Western Sydney University. I combine content and campaign experience with real data skills (**Python, SQL, Power BI, Tableau**) to run marketing on evidence, with the measurable results to show for it.

SKILLS

- **Marketing:** content creation, social media (TikTok, Instagram), campaign management, stakeholder engagement, Canva
- **Marketing analytics:** audience & engagement analysis, Power BI & Tableau dashboards, Excel, A/B thinking
- **Data & technical:** Python (pandas), SQL, data visualization, Git
- **Ways of working:** content calendars, task prioritization, deadline management

PROJECTS

Home Sales - Performance Dashboard - [Live](#) · [GitHub](#)

- Analysed 9,999 e-commerce orders and surfaced a **33% cancellation rate** as the core revenue leak (against a \$2.86M completed-revenue base), turning raw data into a clear decision story.

Global Health Inequality - Tableau Dashboard - [GitHub](#)

- Built interactive dashboards translating complex WHO data into clear visual stories for a general audience.

Wine Quality - Machine Learning - [GitHub](#)

- Applied regression and classification to predict wine quality - evidence of the modeling depth behind the marketing analytics.

EXPERIENCE

Marketing Intern - JRM Team

Jan 2024 - Mar 2024
